With regard to the export of these goods to Allied countries in *neutral* ships, special guarantees have to be obtained in the case of each consignment from the Legation in Petrograd of the neutral country under whose flag the ship sails (in agreement with the British Embassy if the articles are going to the United Kingdom direct), that the goods are proceeding to the Allied countries named and will not be re-exported to an enemy country.

The exportation to the United Kingdom of game, poultry (dead), eggs and bacon, is authorised, without special authorisation in the case of each consignment, if the goods are despatched (from the Finland Station, Petrograd) by the "direct oversea Scandinavian route," *i.e.*, *viâ* Raumo or Montyluoto.
